IMAGINE SCIENCE FILMS

is a non-profit organization that promotes a high-level dialogue between scientists and filmmakers. It aims to make accurate science engaging and accessible to all audiences.

Founded in 2008, ISF has grown to include the Imagine Science Film Festival, the Film Lab, Artists in Residence, and Outreach Programs like the Guest Country Initiative and Satellite Festivals reaching audiences around the world.

IMAGINE SCIENCE FILM FESTIVAL is the only annual film festival in New York founded by scientists, showcasing films that incorporate science in credible and compelling narratives. Screenings are hosted at venues throughout the tri-state area.

FILM LAB

is an initiative to transform laboratories into film studios, pairing scientists and filmmakers to create imaginative short films based in scientific fact.

ARTISTS IN RESIDENCE

are an international group of artists and scientists recognized by ISF for work that exemplifies the marriage between science and the creative process.

OUTREACH PROGRAMS

are designed to unite scientific and artistic communities at an international level. The Guest Country Initiative selects a new country each year to spotlight during the festival. And ISF Satellite Festivals host screenings around the world.

DONOR INVITATION

Imagine Science Films cordially invites you to become a part of our community.

WHERE THE WORLDS OF SCIENCE & FILM MEET

IMAGINE SCIENCE
FILMS is creating a new
headquarters!

The Imagine Science Lab will showcase works that combine science & film as well as provide studio space for artists, filmmakers and scientists to collaborate on original films, scientific research and multimedia projects. A learning center will offer community programs that educate the general public about science through the visual arts, as well as exhibit work created in the LAB.

Founding Benefactors will be honored throughout the year and will receive a lifetime Imagine Science VIP Membership.

A plaque will be displayed on building grounds, honoring Founding Benefactors by name, and a permanent position on the ISF Advisory Committee will be made available.

Donations from Founding Benefactors start at \$15,000.
